## EDUCATION

### MSc Data Science

#### University of Bristol

Bristol, United Kingdom  
2021 - 2022  
Upper Second-Class Honors 2:1 (Merit)  
Bristol PLUS Award

### BE Computer Science

#### The Oxford College of Engineering

Bangalore, India  
2016 - 2020  
First Class Distinction  
1st Rank Award

## SKILLS

- People Analytics & Workforce Strategy
- HR Systems Transformation & Workday Integration
- HR Data Migration & System Integration
- Data Modelling, ETL & Automation
- Predictive & Insight-Driven Analytics
- Data Governance, Quality & GDPR Compliance
- Process Mapping & Optimisation
- Senior Stakeholder Engagement & Advisory
- Data Storytelling & Executive Reporting
- Cross-Functional Collaboration (HR, Tech, Vendors)
- Data Architecture & Integration Design

## TOOLS

Tableau, Power BI, SQL, Python, Power Automate, Workday, Excel (Advanced)

## WORK EXPERIENCE

### People Data Analytics & Systems Lead

- Saga Plc.****May'24 - Present**
- Led and supported **HR data migration** during organisational partnership, ensuring data integrity, compatibility, and compliance across multiple HR systems.
  - Played a key role in delivering a **multi-phase migration strategy**, implementing validation, reconciliation, and control frameworks to support payroll, holiday pay, and regulatory reporting.
  - Led and supported **Workday implementation readiness and integration design**, defining data mappings, system interfaces, and end-to-end data flows across HR and enterprise platforms.
  - Developed strong expertise in **Workday**, including business objects, data structures, and reporting capabilities, supporting accurate data mapping, validation, and insight generation.
  - Built and validated **Workday-aligned datasets and reports**, ensuring consistency, reconciliation, and data accuracy across migrated and integrated systems.
  - Defined and documented **HR systems architecture and integration flows**, enabling seamless interoperability between HR systems, vendors, and enterprise platforms.
  - Developed comprehensive **process maps and system documentation**, improving system transparency and supporting transformation delivery.
  - Designed and implemented **automated data pipelines and workflows**, reducing manual effort and enabling efficient, near real-time workforce reporting.
  - Delivered **insight-driven analytics**, identifying key drivers of absence, attrition, and workforce trends to support data-informed decision-making.
  - Implemented **intelligent automation and AI-assisted analytics**, including automated data validation and anomaly detection to improve data quality and reporting accuracy.
  - Established **data governance and GDPR-compliant frameworks**, ensuring data quality, accuracy, and risk mitigation across sensitive HR datasets.
  - Acted as a **strategic partner to senior stakeholders**, translating workforce data into actionable insights to support workforce planning and organisational performance.

### Data Analyst

- Saga Plc.****Jun '23 - Apr '24**
- Developed and delivered interactive Tableau dashboards to support workforce analytics, enabling self-service reporting for business stakeholders.
  - Built and optimised ETL pipelines using Tableau Prep and SQL, improving data accessibility and reducing reporting turnaround time.
  - Automated reporting workflows using Power Automate, reducing manual effort by 30% and increasing team productivity by 20%.
  - Designed and implemented an automated absence tracking solution, reducing absence rates from 25% to 6% and generating savings of £40,000+.
  - Performed ad hoc and exploratory data analysis to identify trends and support business decision-making.
  - Managed and maintained datasets for 2000+ employees, ensuring data accuracy, compliance (GDPR), and reporting consistency.
  - Collaborated with stakeholders to translate business requirements into data-driven insights and reporting solutions.
